

Collaborative Inventory of STEM Education Activities
Sample Survey Template Feedback Questionnaire

The Collaborative Inventory of STEM Educational Activities is a statewide effort to catalogue the many Industry, Informal Education, K-12, Community College, and University led educational programs. The data collected will be available in order to facilitate a collaborative environment for activities supporting STEM education.

The attached pages are a survey template for the purpose of generating feedback from you to determine the features that can make the Collaborative Inventory of STEM Educational Activities as useful as possible to the types of organization listed above and to the general public. We appreciate your taking the time to give us your feedback.

Name: _____ Organization/Department: _____
Email: _____ Phone: _____

Would you like to receive CSA's SpotBeam electronic newsletter?
Yes _____ No _____

1. Who should be considered the ultimate users of the Collaborative Inventory of STEM Educational Activities?
