30th Space Wing
747 Nebraska Avenue, Suite A200
Vandenberg AFB CA 93437

The Honorable Andrea Seastrand
Executive Director
California Space Authority, Inc.
3201 Airpark Drive, Suite 204
Santa Maria CA 93455

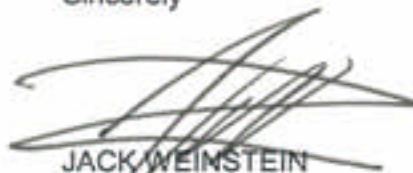

*I'm looking forward to
working with you.
Jack Weinstein*

Dear Ms. Seastrand

I reiterate General Lord's appreciation for your innovation and ongoing support. The Hawk's Nest Project potentially may provide the public with insight into the evolving space story happening at Vandenberg AFB through such agencies as the US Air Force, NASA, the National Reconnaissance Office (NRO), and commercial space customers. Your interesting Project 66 Alpha concept has great potential to facilitate all aspects of the space story to include the history beginning with the Chumash Native Americans and culminating with the powerful role the Air Force has as the current steward of the environment. Also, I am excited about the potential educational investment your project may have for the future of tomorrow's Airmen and citizen leaders.

I encourage you to continue your efforts in this matter. Please contact the 30th Space Wing Program Requirements Office, 30 SW/XPR, (805) 605-8263, for any issues in the future.

Sincerely

JACK WEINSTEIN
Colonel, USAF
Commander
