

Space Tourism Asset Input Form

The California Space Authority is beginning a project to inventory the land-based space-related publicly available facilities and attractions throughout the state. Examples include theme parks, space camps, museums, visitor centers, gift shops, "astronaut training" centers, Imax theatres, etc. that are entirely or in part space related. We're interested in all facilities, whether profit or non-profit; public or private; large or small; operational or in planning. If in doubt, tell us about it.

The initial push to collect data relates to an offer by the State Tourism Department to put up a virtual space tour of California on its web site. They would like to do this by the end of May to catch the summer travelers. If you would like your facility included in this, please tell us about it ASAP.

ALL FIELDS ARE OPTIONAL. However, the more you tell us, the better your facility is likely to be represented. Please use one form for each facility, and tell us as much as you can for now, and we'll track down the rest later.

Today's Date:
Your Name:
Facility Name:
Owner:
Point of Contact (POC) Name:
POC Title:
POC Address Line 1:
POC Address Line 2:
POC City/State/ZIP:
